

5 QUICK TIPS ON AVOIDING IDENTITY THEFT: THE FASTEST GROWING CRIME IN AMERICA

TIP #1: Safeguard your personal information

- Shred financial documents and other paperwork that may contain personal information.
- Don't carry your Social Security card in your wallet, never carry more credit cards than you need, and cancel credit card accounts you don't use.
- Never give out personal information via phone, through the mail, or over the Internet.

TIP #2: Never click on links sent in unsolicited emails and use firewalls, anti-spyware, and anti-virus software to protect your home computer; keep them up-to-date.

TIP #3: Don't use an obvious password like your birth date, your mother's maiden name, or the last four digits of your Social Security number. And don't use the same password on multiple sites.

TIP #4: Keep your personal information in a secure place at home. Never leave mail unattended in an unsecure mailbox – this provides a ripe opportunity for theft.

TIP #5: Routinely monitor your financial accounts and billing statements and inspect your credit reports.

If you suspect an identity thief has filed a change of address or has used the mail to commit bank or credit fraud, notify the U.S. Postal Inspector's Office post office. Theft of mail is a felony. Determine where the fraudulent credit cards were sent. Notify the local Postmaster for that address to forward all mail in your name to your own address. You may also need to talk with the local mail carrier for that address as well.
